Dennis Gallagher, Founder and President  
Prescott Western Heritage Days Foundation  
P.O. Box 773  
Prescott, AZ 86302

Dear Mr. Gallagher:

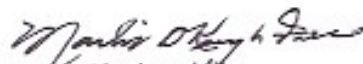

Thank you for your dedicated service to the City through the Prescott Western Heritage Days Foundation. Your organization, and the events and activities it produces for our residents and visitors, is a testament to the role that volunteerism and non-profit organizations play in maintaining our vibrant community.

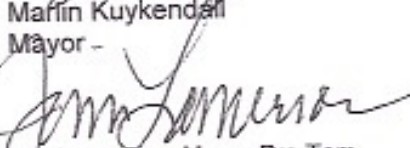

Your recent proposal for the City to partner with the Foundation and other organizations including the Chamber of Commerce and Prescott Downtown Partnerships was well received. The two initiatives, outlined below, are underway with the support of the Prescott City Council:

- 1) Update the downtown banner program to promote the Sesquecentennial – The ad-hoc Sesquecentennial Committee created a logo for the celebration. The City is working with its partners to finalize the banner design and will fund the banners and installation.
- 2) Enhance the downtown building lighting to provide the cityscape outline lighting year round. The Prescott Downtown Partnership is auditing the electric meters to determine how the meters are billed, and to whom. Once this audit is complete and necessary system changes are determined, an estimate of electric billing and cyclical maintenance and replacement of the lights can be provided. Based on that information the City will be in the position to make a final decision on funding the program, although it appears that the budgetary impact will be minor.

Thank you for bringing these initiatives to our attention. We look forward to assisting you in bringing them to fruition.

Sincerely,

  
Marlin Kuykendall
